

# Homework: Start Your Own Blog

This document defines homework assignments from the [“Teamwork and Personal Skills” Course @ SoftUni](https://softuni.org/courses/teamwork-and-personal-skills). Please submit as homework a single **zip** archive holding the solutions (source code only) of all below described problems.

## Problem 1. Start Your Own Blog

Check the both free blogging platforms from the presentation and choose one. Build your own blog and add information to it. You can add your personal details and your achieved projects. Your first Teamwork Project is a good start. Submit a link to your blog as a homework.
